Provida

What makes Provida unique?

Who is Provida:

Provida is an Australian software company with proven expertise in the design, development and deployment of superior business management solutions. With substantial multi-industry experience, Provida understands complex and dynamic markets.

Provida has over 100 corporate clients in Sydney, Melbourne, Perth, Queensland and Asia. We have offices in Sydney, Melbourne and Brisbane.

Provida serves a diverse range of companies and non-profit organisations that generally exceed \$10million in turnover per annum.

Our Best of Breed Solutions:

Our complete solutions portfolio works in concert to create an integrated management platform for all your business objectives and requirements.

Our focus is on providing you with a robust solution that delivers a fast return on investment. We specialise in accounting systems, data analysis and reporting, application development and e-business solutions.

Whether you invest in one component or an entire system, Provida delivers what you need to make informed business decisions.

Provida provides a dedicated Help Desk

What We Believe In:

At Provida, we are committed to our clients. That means you can be assured that we are working with your needs in mind at all times. We are dedicated to providing you with the best of breed business systems, service and support. We have a history of providing superior technology solutions on time and on budget.

Provida's Mission:

Our multi-skilled, experienced team deliver intuitive, and user friendly, integrated software solutions as we strive to create and maintain satisfied long term clients. Our mission is to empower YOU to make accurate and strategic business decisions based on the information available in the enterprise software systems. Our success is tied to your success.

"The Provida team has consistently provided us with fast and dependable support. Their professional and experienced consultants ensure that we are receiving the most benefit from our system."

Trevor Saunders, Finance & Administration Manager,
University Admissions Centre

Our Commitment to You:

- * To work with and guide YOU in establishing clearly defined software needs
- * To provide the best possible solution based on the defined needs
- * To successfully implement the system in terms of functionality, time constraints and budget
- * To provide superior service and after sales support tailored to YOUR needs
- * To keep YOU aware of the latest development in information technology
- * To provide professionally delivered technical innovation in terms of after sales development and customisation.

Provida

"Accounting software integrator, Provida, has snared a significant contract with NSW State Lotteries to replace its ageing accounts software. A NSW Lotteries spokesperson said it selected Provida because it had suggested the solution that would work best in the market place."

Rob Irwin, Australian Reseller News

Implementation Methodology:

Provida follows a full system implementation methodology, proven over 12 years of successful implementations incorporating:

- * Pre-implementation checklists
- * Installing the software
- * Configuring the software
- * Training
- * Customising the software
- * Testing
- * Support
- * Issues list management

Service, Training, Support and much more. Provida can do it all...

Provida

Sage Accpac ERP offerings

World-Class Architecture:

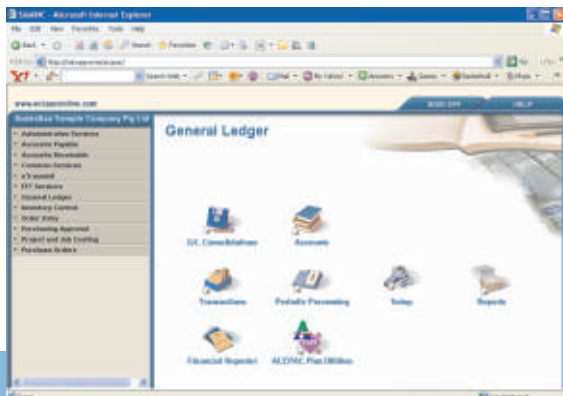

Sage Accpac ERP (formerly ACCPAC Advantage Series) is an advanced accounting application built on a world-class, object oriented, and multitiered architecture. Designed for companies of all sizes, Sage Accpac can be deployed both as a Web-based and desktop application, and is the foundation for an integrated set of end-to-end business management applications. You choose the solutions that work best for you: the applications, database, and deployment options, the user interface and languages, the network environment or operating system, the add-on software developed by Sage Software or independent industry experts, and the customised features that help you operate more efficiently and profitably.

Ultimate Scalability:

From single-user remote locations to large corporate environments with demanding accounting needs, no other product scales like Sage Accpac. With Sage Accpac, you can seamlessly upgrade from one edition to the next as your business requirements expand. When you upgrade, your data and custom reports easily move with you. All Sage Accpac editions have an identical user interface, making it easy to adapt to the next edition without costly staff retraining or data conversion. Sage Accpac also enables data processing to be distributed across multiple servers, so as your number of users increases, multiple servers can share the processing load.

Completely Web-Based:

Sage Accpac has changed the rules for mid-market business management solutions by offering complete access to your accounting system through a standard Web browser. No longer limited by location, now you can access Sage Accpac anywhere, anytime through our easy-to-use, Web based interface.

" The Provida team has provided us with a reliable and flexible business system that satisfies our current requirements and can adapt to our evolving needs "

Wärwick Potts, National Supply Operations Manager, Healthscope Ltd

Easy to Use and Customise:

Sage Accpac is easy to set up and use, with intuitive wizards and a familiar interface that makes configuration and navigation a breeze. Embedded Microsoft Visual Basic for Applications (VBA) lets you easily expand, customise, and integrate your Sage Accpac application. From simple desktop personalization to user-specific customization, Sage Accpac adapts to the way you do business. In addition, Provida can enhance and extend your Sage Accpac system to meet your market-specific requirements, thanks to their specialised skills and extensive expertise.

Run your business your way:

A wide choice of end-to-end business management applications integrate with Sage Accpac right " out-of-the-box." Provida can implement these cost-effective, reliable solutions all at once or one at a time to fit all your particular business needs - from Web store to warehouse and pre-sales prospecting to post-sales customer care. There is also the availability of a wide range of high-quality integrated vertical tools designed by third-party developers from around the world.

End-to-End business management applications:

Sage Software offers unmatched freedom of choice:

- * True integration across applications
- * Advanced Web and wireless access
- * Flexible deployment and purchasing options
- * Scalable, open architecture
- * Advanced customisation.
- * Microsoft Windows or Linux operating system support
- * IBM DB2, Microsoft SQL Server, Oracle, and Pervasive SQL
- * Database support
- * Full multilingual and multicurrency capabilities and much more!

Seamlessly upgrade from one edition to the next

Provida

100% Client Service Focused

100s of Industry-Specific Solutions:

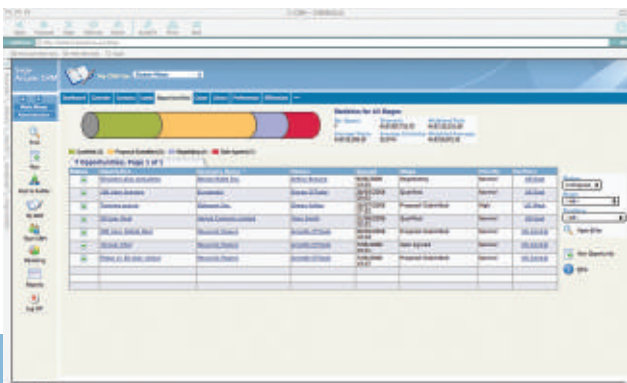

Sage Software has an extensive network of more than 400 development partners who develop and market a wide range of industry-specific applications that enhance and extend Sage Accpac for specific industries and special business needs. Whatever your industry, Sage Software and Provida provide cost-effective, reliable business management applications that fit your needs.

Standard Accpac modules include:

- * System Manager
- * General Ledger
- * Accounts Receivable
- * Accounts Payable
- * Inventory Control
- * Order Entry
- * Purchase Orders
- * Project and Job Costing
- * Multicurrency
- * Transaction Analysis and Optional Field Creator
- * National Accounts Management
- * G/L Security
- * G/L Consolidations
- * Intercompany Transactions
- * Process Server

Sage Accpac CRM:

Sage Accpac CRM is a comprehensive, award-winning CRM system that provides enterprise-wide access to vital customer, partner, and prospect information - anytime, anywhere. Sage Accpac CRM helps you better manage your business by integrating field sales, internal sales, customer care, and marketing information and is available in-house or as a hosted application at www.sagecrm.com.

" The Provida consultants are a formidable team, going above and beyond the call of duty to ensure a successful implementation and a satisfied client."

Dr. Richard Satur, Chief Executive Officer, Spectral Lines Pty. Ltd.

Sage Accpac ePOS:

Sage ACCPAC ePOS is a comprehensive point-of-sale system for fast paced, high-volume, multi-site retail operations. It features an intuitive Web-based interface and provides a complete view of your customer activities and inventory that scales to meet even the most complex retail demands.

Sage ACCPAC Insight:

Sage Accpac Insight is an enterprise-wide reporting, budgeting, and consolidations application that is ideal for employees in remote offices and disparate departments who need to manage, distribute, and collaborate from a single, unified source. It allows you to quickly capture and integrate information into meaningful reports and securely distribute them across your entire enterprise on demand.

Income Statement Elements	Balance Sheet Elements	Financial Ratios
Net Revenue \$ 1,111,111	Assets	Net Margin % 30.00

Operating Expenses \$ 222,222	Accounts Payable	Debt to Equity 1.10
Operating Income \$ 111,111	Equity	Return on Equity 11.00
Interest Expense \$ 11,111	Liabilities	Debt to Capital 1.10
Interest Income \$ 11,111	Equity	Debt to Assets 1.10
Net Income \$ 100,000	Equity	Debt to Equity 1.10
	Equity	Debt to Assets 1.10

Accpac CFO:

Accpac CFO is a financial diagnostic tool that helps you better understand the implications of specific business decisions, identify the most effective use of financial resources, and measure the profitability of virtually every business goal.

Provida

Sage Accpac

All three editions of Sage Accpac are built from the same Web-based, multitiered technology. Choose the one that meets your business requirements.

Sage Accpac 100 ERP:

Sage Accpac 100 ERP is a completely Web-based application specifically designed for the growing company that requires a complete accounting and operations solution. This scalable solution provides you with the financial management power you need - at a price you can afford. Like all editions, Sage Accpac 100 is built from open, multitiered technology, allowing you to efficiently increase the functionality and capabilities of your software as your business grows.

Sage Accpac 200 ERP:

Sage Accpac 200 ERP is a completely Web-based, affordable, and expandable business management solution designed for mid-sized accounting environments. It offers powerful analysis and reporting tools and a complete accounting feature set, with operations management capabilities. You'll find it's easy to upgrade as your business needs expand because it is built on the same superior architecture as Sage Accpac 500 ERP.

Sage Accpac 500 ERP:

Sage Accpac 500 ERP is a comprehensive Web-based business management solution with powerful financial and operations management, e-business, and customisation capabilities. Built on a solid, multitiered, open architecture, this edition supports unlimited users and offers you an easy upgrade path from other Sage Accpac editions.

Designed for Global Business:

In today's global marketplace, competition extends well beyond a country's borders. Sage Accpac supports multiple languages and is designed to satisfy the most demanding international requirements. A truly global application, Sage Accpac supports multiple currencies, value-added taxes, GST, and local accounting requirements so that you can be confident you have what it takes to compete worldwide.

Sage Accpac is the foundation for an integrated set of end-to-end business management applications designed to grow with your business.
