

## University Admissions Centre uses Sage ERP solution from Provida

### ► Client Background

The Universities Admissions Centre (UAC) processes applications for admission to most undergraduate courses at participating institutions (mainly located in NSW and the ACT).

UAC also:

- process applications for admission to many post graduate courses
- calculate and provide the Australian Tertiary Admission Rank (ATAR) to NSW HSC students
- administer tertiary admissions tests such as the Special Tertiary Admissions Test (STAT)
- process applications for Educational Access Schemes (EAS)
- process applications for some Equity Scholarships.

UAC is a statutory organisation owned by Uniprojects Pty Ltd which in turn is owned by the NSW Vice-Chancellors Committee.

### ► The Challenge

As a large statutory not for profit organisation, UAC has complex accounting, budgeting and reporting requirements.

### ► The Provida Solution

The ERP implementation project saw Provida deploy Sage Accpac ERP 500 in the UAC Homebush head office. UAC has used Sage Accpac ERP since 1999 and during that time Sage ERP has proven itself to be a stable and reliable accounting system platform. Provida has been the long term solution provider offering UAC software solutions for advanced budgeting, integrated payroll, document management and accounting.

Part of the solution offered to UAC solution was Provida's ground breaking Document Management System (DMS) which allows UAC to attach images of paper documents to the relevant Sage accounting transaction thereby greatly improving auditing and document finding capabilities.

Provida has also custom developed a complex advanced budgeting that allows budgeting on line items that aren't stored as account numbers in the general ledger.

### ► Achievements

The advanced budgeting solution more than halves the time it takes to prepare yearly budgets and forecasts. The program also quickly and easily reports on rolling budgets so they can be printed or emailed at any time throughout the fiscal year.

*"The Provida team has consistently provided us with fast and dependable support. Their professional and experienced consultants ensure that we are receiving the most benefit from our ERP system."*

Trevor Saunders, Director Corporate Services  
Universities Admissions Centre
